Fig. 2. $\log_{10}$ of the mean $\pm$ SD of the number of *S. aureus* per gram of meat in the control and treated groups. The control group was not treated with any preservative. The treated groups were treated with 0.1% (a), 0.2% (b), 0.3% (c), 0.4% (d), 0.5% (e), 0.6% (f), 0.7% (g), 0.8% (h), 0.9% (i), and 1.0% (j) of the preservative. The data were analyzed by one-way ANOVA. The means with different letters are significantly different ($P < 0.05$).

$H_0 = \mu = 0$, $H_a = \mu > 0$. The test statistic is
 $T_n = \frac{\bar{X}_n - \mu_0}{\sigma/\sqrt{n}}$. We reject H_0 if $T_n > z_{1-\alpha}$.
 The power function is $\pi(\mu) = P(T_n > z_{1-\alpha} | \mu)$.
 The power curve is $\pi(\mu) = \Phi\left(\frac{\mu - \mu_0}{\sigma/\sqrt{n}} + z_{1-\alpha}\right)$.

Directory

Advertising is good Advertising.

The Price & Lee Co.

Directory
Publishers

New Haven

Bridgewater
Newark

It keeps your name and business
before all the people all the time. A
City Directory is on the job 24 hours
a day, 365 days a year. It gives you
permanent, consistent publicity at a
very low cost. Advertising rates
upon request.

Common Sense

About City Directory Circulation

The true value of advertising circulation is circulation consulted.

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$

1,067,500

Consultations or
Circulation Consulted

ARE THEY USED?

Just six Price & Lee directories in customer's use for one year picked at random when the new one was issued.

What a tribute to the knowledge of the man who insists on complete representation throughout his city directory.

Your city directory is where advertising becomes a part of durability and use.

1. The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as $t \rightarrow \infty$. It is shown that the solutions of the system (1) tend to zero as $t \rightarrow \infty$ if and only if the matrix A is stable.

11. $\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$

$$T_{\alpha} = \frac{1}{2} \left(\frac{1}{\alpha} + \frac{1}{\alpha} \right) = \frac{1}{\alpha} = \frac{1}{\alpha} \quad \text{if } \alpha = 1$$

1. H_2O is a polar molecule. It has a bent shape, with the oxygen atom at the vertex and the hydrogen atoms at the ends of the bonds. The oxygen atom is more electronegative than the hydrogen atoms, so it pulls the shared electrons closer to itself. This creates a partial negative charge on the oxygen atom and a partial positive charge on each hydrogen atom. The resulting dipole moment is represented by a vector pointing from the hydrogen atoms towards the oxygen atom.

Figure 1: A plot of the function $f(x) = \sin(x)$ for $x \in [0, 2\pi]$. The x-axis is labeled x and ranges from 0 to 2π . The y-axis is labeled $f(x)$ and ranges from -1 to 1. The curve starts at (0,0), reaches a maximum at $(\pi/2, 1)$, crosses the x-axis at $(\pi, 0)$, reaches a minimum at $(3\pi/2, -1)$, and ends at $(2\pi, 0)$.

Common Sense

About City Directory Circulation

The true value of advertising circulation is *circulation consulted*.

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore—

DIRECTORIES AND REFERENCE MEDIA STANDARDS OF PRACTICE

ADOPTED BY THE DIRECTORY AND REFERENCE
MEDIA DEPARTMENTAL OF THE ADVERTISING
FEDERATION OF AMERICA

The publisher of a Directory or Reference Medium should dedicate his best efforts to the cause of business uplift and social service, and to this end should pledge himself:

1. To consider, first, the interests of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all Departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. *To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.*
